SANJAY NAVGIRE
INTERIOR DESIGNER

Pune is a bustling metro city with a vibrant population and growth rate that equal to all top cities in the country. Little wonder that real estate has been a booming industry and all associated professions such as interior design have been equally popular here. With various designers available by the dozens and competition at a high level, how does one stand out and earn a name for himself? Ask Sanjay Navgire, professional interior designer in the Maharashtra City of Pune and he will probably say "It's all about work and dedication towards it." Because there is a good reason why he will say so because his area of work has been defined by pretty much his own self, that is hard work and fueled by a work ethic, from time to time.

Sanjay had completed his Interior Designing course from Aurangabad. Upon completion of this course, he was working with an architect of Maray Associates for four to five years. He had longed to get his Master's Degree in IIT Bombay, right from childhood. Sanjay had an attraction towards art and creativity. While he worked hard as an Interior Designer in Aurangabad, the dream was always to start something of his own. This is where the work of which was waiting to work.

When Sanjay got engaged to a girl from Pune, he thought of checking opportunities in Pune. From the entrepreneurial spirit, Sanjay wanted to start his own, scale up and become a self-made man. He decided to start Pune Interiors. Since Pune was just getting started, Pune Interiors, Sanjay's firm was just started in the new form. With an objective to fulfil his dream, in one of the years, he thought of creating some projects from the point of view of purchasing it for his customers.

While looking out, Sanjay came across a construction site of Mr. Anantaram Chavanrao who was building their project "The Grand Vihar", in "Vadgaonwad", then, He instantly approached Kamaldeep to suggest about the cost to acquire an office. On knowing Sanjay's expertise, he is more offer him an opportunity to work at their office there.

While looking in the form of his lady luck bringing him the biggest opportunity, it was now of Sanjay to use his business acumen to propose to open the opportunity for himself. Inspired by his hard work, dedication and the quality of work delivered, Kamaldeep Development agreed him for the entire project, giving him a steady amount of business for the next 3 years and the rest on the long run, thereby...

AN EYE FOR ART

Sanjay took single one of this single assignment to design for various clients in the next six years and the word came around rapidly, establishing him as one of the top most interior designers of the city today. This success story may seem like a fairy tale but he had a dream of example. Sanjay used to come to clients from Pune to Mumbai to Aurangabad to Laturville. Sanjay recalls an incident when he was called to Laturville to bid for a project and since it was still early days for him to comment on his like experience. He was intended to learn that the only reason he could get the project was because he failed to create a good enough impression on the prospective client. This was an eye opener.

“Everybody wants easy money but the truth is bitter, there is no easy money. The only way you earn money is by working hard, seizing the moment and dedicating yourself to build on top of that moment.”

and not to be pulled down by such setbacks, he approached him of Maharashtra City, Pune. Once again luck supported him and he received a loan quickly and that helped him to buy small office and start his own business account and quick thinking helped him big rewards as his name spread and he gained more confidence. So does he believe in luck? He definitely does and acknowledges his will to be the reason for his luck.

The next milestone to expand his business came in form of clients who asked him questions from the aspect of Vastu. Seeing an opportunity in Vastu Consultancy, he received the help, had credit to present a course in Vastu Shastra, Compensating his own business acumen and intelligence, he will, Dr. Sanjay Navgire, reached him equally when the time came to complete her PhD. in Vastu Shastra. This, he believes, wasn't just an opportunity that he was and there started immediately and worked with his wife, with a single-minded determination to achieve success. Today, his company is able to offer integrated solutions to begin with interior designing, consultation and services coupled with Vastu consultancy, which in turn has increased his experience, that only residential projects but he can also offer for co-operative and individual office, Hotel, Restaurant, showrooms, hospitals etc.

His success story, Sanjay Navgire follows in work-life balance and it is a family man to the core. A strict disciplinarian, he closes office at seven sharp, as soon that it is finally time the both suggestions in Robert Combs and Anil Vaidya states and absolutely believe in the present and looking back with optimism.

Vaastu Shastra : consultancy

Whatever may be your Vaastu?

Doesn't matter!

All this talk of Vaastu is fine but can it applied in its entirety to home, workplace or industry? May be not, because practical application of Vaastu Shastra becomes very difficult in today's life style, due to the pressure to purchase plots & buildings not conforming to Vedic Vaastu principles, especially in big cities and metro towns.

There are many people who want to enjoy benefits of Vedic vaastu shastra but either has already bought the plot or flat or is using a constructed building. So what should they do? Buy another plot and build a new building there according to Vedic Vaastu Shastra? We know that this is nearly impossible, **But don't worry!** We will make it positive results without affecting your present set up and **THAT..... TOO AT REASONABLE FEES.**
